Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the PGCPs School-Based Health Center Expansion Efforts project in Fiscal Year 2027. The entity to receive funding for this project is Prince George's County Government, located at 1301 McCormick Drive, Largo, MD 20774. This project would fund essential medical equipment and facility modernizations to support a healthcare network within Prince George's County Public Schools (PGCPS). Project funding would be used for medical equipment for seven existing fixed School-Based Health Centers (SBHCs) and a new Mobile Health Unit.

School-Based Health Centers help advance the health and well-being of young students by delivering accessible and essential services directly within the school setting. The project is an appropriate use of taxpayer funds because it will help students have timely access to high quality healthcare options at school and in areas where SBHCs are not available by employing the use of a Mobile Health Unit.

The project has a federal nexus because the funding provided is for purposes authorized under the Public Health Service Act.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink, appearing to read "Steny Hoyer".
