

Congress of the United States
House of Representatives
Washington, DC 20515-6502

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for Mattawoman Woods and Dogwood Lift Station in Fiscal Year 2026. The entity to receive funding for this project is the Town of Indian Head, located at 4195 Indian Head Hwy, Indian Head, MD 20640. The funding would be used for the Town to design, permit, and construct two new sewage lift stations to replace two failing lift stations. The project is an appropriate use of taxpayer funds because the taxpayers will benefit from the completion of this project because they will receive two new sustainable and reliable lift stations to evacuate sewage for numerous years to come. These facilities are essential to ensuring reliable wastewater service and environmental protection in the community. Failure of either station would result in sewage backups and potential environmental hazards, posing serious risks to public health and safety.

The project has a federal nexus because the funding provided is for purposes authorized by Clean Water Act, 33 U.S.C. 1383(c) (Section 603(c) of the Clean Water Act).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink, appearing to read "Steny Hoyer", with a stylized, flowing script.

STENY H. HOYER
